Service Description

Located in the heart of the Madison community, Anesis Therapy stands out for its commitment to providing mental health services that deeply support structural inclusivity. Our multidisciplinary team of therapists possesses a wealth of life and clinical experiences, insight, and community expertise, which contribute to fostering empathy and understanding throughout every facet of our practice.

At Anesis Therapy, warmth, positive regard, deep therapeutic connections, and representation serve as the foundation of our services. We champion the power of individual stories and create a safe space for sharing them, sparking the healing process.

As systems therapists and mental health professionals, we address problems by considering the social, political, and cultural storylines that shape our self-perceptions and personal narratives. Our approach extends to family therapy, where we strive to transform the family system instead of solely focusing on specific members.

Our expertise encompasses a wide range of therapies and interventions, including:

- Trauma-focused Cognitive Behavioral Therapy for youth
- Brainspotting
- Substance abuse counseling
- Child Parent Psychotherapy
- EMDR
- ACT Parenting
- Cultural and linguistic specific services for racially and diverse family structures

Emphasizing client participation in the therapeutic process, we recognize that individuals are our most valuable resource for resolving inner and circumstantial conflicts. Our philosophy centers on the idea that the person is not the problem, the problem is the problem.

Anesis Therapy's mission is to guide people through mental health and wellness aspects of life in a way that honors culture, family, community, and faith.

Services Provided: * Individual and/or Family Psychoeducation * Individual Skill Development and Enhancement * Psychotherapy	Ages Served: Birth - 84 Service Location: Home, Office, Other Place of Service Service Limitations:
Service Description Anu's Parent Coaching program focuses on strengthening and repairing the relationship between parent and child. Coaches help parents/caregivers understand how to attune to their child, provide education on child development, and guide them in gaining compassion for and understanding of the reasons behind their children's behaviors. Parent Coaching empowers parents/caregivers by giving them practical trauma-effective parenting tools while encouraging them to parent in a loving way that draws their child in rather than push them away. Parenting techniques to be explored can include: <ul style="list-style-type: none"> • Heartfelt appreciation (which rewards the desired behavior) and encouragement • Understanding that all behavior is communication and uncovering what your child is trying to convey • To foster increased attachment • Implementing family meetings • Establishing effective rules • Growing desired behaviors • Implementing "do-overs" rather than punishing • Staying in the present moment--letting go of fears over tomorrow or what happened yesterday • Understanding the individual child and his/her challenges, i.e., autism, ADHD, ODD, sensory processing concerns, reactive attachment disorder, giftedness, etc. • Communicating with children, so the message gets through • Appropriate use of consequences • Handling pressure from other relatives, teachers, and friends • Creating structure Individualized Trauma Services (ITS) is designed to help consumers, both adults and youth, grieve past losses and build resilience for future emotional and relational success. ITS builds consumers' resilience by helping them process the effects of their trauma and by strengthening relationships with a healthy support network. Goals for ITS include helping consumers practice advocating for themselves and finding value in themselves, making them less vulnerable in society.

Service Description 1. Conflict & Repair Dialogue • Three to ten is the average number of sessions per referral. Each session is 1 - 2 hours in length. • Conflict & Repair dialogue is a facilitated process used to address a specific conflict or patterns of conflict between two or more people that centers around restoring healthy relationships versus establishing "right" and "wrong." Conflict & Repair dialogue is a voluntary, collaborative form of communication and problem-solving. This service begins with the provider having one-on-one meetings with each party before a joint session can take place. Participants may: explore patterns of communication that stem from and result in fractured relationships, resolve long-standing differences, and learn to receive the concerns and feelings of others and empathize with their needs. 2. Family Circles • There are no maximum or minimum number of Family Circles per referral. Family Circles can involve multiple family members. Each session lasts 1.5 to 2 hours. • Family Circles provide a process for bringing two or more family members together as equals to talk about difficult issues in an atmosphere of respect. The intent of a Family Circle is to speak honestly about how each person is being impacted by one another, to seek mutual understanding, and to create agreements that serve every member. The process is based on an assumption of equal worth and dignity for all participants. Family Circles offer the opportunity to address and process harm, violence, misunderstandings, or long-standing conflict; or they may focus more on teaching and practicing tools. Each Family Circle is custom designed to meet each family's needs. 3. Grief Support Services • Individual sessions are typically 1 - 2 hours in length. • Grief Support Services can help people find meaning, value, and restored hope in the midst of suffering (or after incidents of grief and loss have occurred), even if the suffering itself cannot be removed. You and your provider can explore the feelings and thoughts and behaviors associate with losses and identify the innate strengths you possess that will support your healing. Grief Support Services help people adjust to their "changed" life, recognize the impacts that loss has left in its wake, and begin the process of rebuilding by learning tools and strategies to cope and process feelings and experiences. If making a referral, please find my referral form on my website: www.collective-voices.com/

Service Description

Service Overview:

TEAM Cognitive Behavioral Therapy (CBT) is an outpatient, action oriented and skills based form of psychotherapy that is effective for individuals struggling with depression, anxiety, relationship problems, and unwanted habits and substance use concerns (Butler, et. al., 2006; Hofmann, et. al., 2012). Services are provided exclusively via HIPAA compliant video platform and are based on the pioneering work of Dr. David Burns, MD (see <https://feelinggood.com>). Team CBT is provided by Eric Diamond, a Milwaukee based Licensed Clinical Social Worker and Level 4 Certified TEAM CBT Clinician with 17 years experience as a direct practice clinician and leader in County and non-profit mental health systems. TEAM CBT is now available for adults and adolescents.

Course of Treatment & Expectations:

A course of TEAM CBT includes Dr. Burns's recommended framework, using Testing, Empathy, Agenda Setting, and his vast collection of CBT Methods within each therapeutic session. TEAM CBT, like traditional Cognitive Behavioral Therapy, helps individuals change the way they think, the way they communicate, and other aspects of their lives so they can feel better and recover. Sessions are structured to allow individuals ample opportunity to practice a number of powerful methods to effectively address their depression, anxiety, relationship problems, unwanted habits and substance use concerns.

A course of TEAM CBT includes the following services:

- Video based psychotherapy provided via Zoom for Healthcare, a HIPAA and HITECH compliant platform.
- Empathetic, motivational, action oriented, and skill building sessions with Eric based on Dr. Burns's model.
- After care relapse preparation sessions to ensure individuals are able to sustain the helpful skills and methods, implementing them into their day to day.
- Optional phone and video based therapeutic check-ins across the week.
- Team meetings with recovery team members as needed.
- Clinical supervision with other recovery team members to ensure excellent clinical outcomes.

Session length and course of treatment may vary depending on the needs of the client, but generally, TEAM CBT is delivered in 1.5 to 2 hour sessions, with a typical course lasting between eight to ten weeks. Session length can also be adapted to meet particular insurance payer requirements and/or the preferences of the people served. TEAM CBT can also be adapted for individuals with multiple and complex challenges who may require longer term care.

Who Benefits from TEAM CBT?

TEAM CBT can be helpful for a diverse set of individuals with a number of challenges. Individuals who struggle with depression, anxiety, relationship problems, and/or unwanted habits and substance use concerns can use TEAM CBT to achieve their goals and forward their recovery.

TEAM CBT is an action oriented therapy, and includes opportunities for individuals to practice helpful methods in session. Like with any new skill, the more practice with the method, the greater the success using it. TEAM CBT works best when individuals are willing to complete psychotherapy homework between sessions. Homework may include reading book chapters, listening to podcasts, as well as a host of written and community based exercises. Individuals who are motivated to keep developing their skills by practicing methods in between sessions have the most success.

Eric's Background:

Eric Diamond MSW, LCSW (State of WI License #7817-123) is a Licensed Clinical Social Worker with direct practice and leadership experience in integrated community mental health. He is a Level 4 Certified TEAM CBT Clinician. He has extensive experience providing high quality psychotherapy and care coordination, leading effective programs, and delivering clinical supervision to professional staff. In addition to being a student and practitioner of TEAM CBT, he has extensive training in and practice experience with traditional Cognitive Behavioral Therapy, Motivational Interviewing, Measurement Based Care, and Zero Suicide. Eric is a lifelong student who enjoys innovating and learning new skills and tools. He is committed to supporting teams and helping people recover.

<p>Service Description</p> <p>EMPLOYMENT SERVICES</p> <p>EmployAbility provides one-one-one employment support services to help people find and sustain employment in the competitive market. Services include career exploration, customized job searching, employer outreach, new job training support, and help maintaining employment. Our Employment Specialists provided comprehensive support during the job search process that includes client-directed career exploration which can include job shadows with the goal being that the person can utilize their current strengths and abilities to secure employment without the need for additional training or education. We also work cooperatively with consumers to develop resumes and cover letters that are effective but also use the consumer's voice. Our goal is to not only help people find employment but give them the tools to be more effective in their own job search so, we also provide training on how to search for and apply to positions. When appropriate we also reach out to employers utilizing a strengths perspective to advocate for consideration for a posted job opening or to create a custom job based on the skills and abilities of the consumer.</p> <p>Interview preparation services include mock interviews, preparing for competency-based interview questions, and attending interviews with consumers when appropriate. Our Employment Specialists are also equipped to provide insight into what different employers/industries are seeking in an employee in order to provide customized preparation for specific interview locations.</p> <p>Upon accepting an offer of employment, we can provide any additional support to sustain the job. This support may include on-site job coaching, reasonable accommodation request assistance, advocacy, and mediation. There are no time constraints on these services and consumers can receive these retention services at any point regardless of whether or not EmployAbility helped them obtain the job or how long they have been employed.</p> <p>We also provide guidance to help people understand how working may impact a person's benefits (SSI/DI, Foodshare, Medicaid, Sec. 8/42 housing, etc.) and work with them to make sure they are complying with any wage report requirements for those benefits.</p> <p>SKILL DEVELOPMENT</p> <p>EmployAbility can provide a wide variety of support to assist people in their mental health recovery and work towards greater independence in their community. Skill development is most often facilitated in a consumer's home or community and support can take many forms. The most common types of support that consumers request include computer and smart phone literacy, organizational skills and financial literacy.</p> <p>PSYCHOEDUCATION</p> <p>EmployAbility currently offers an Anger Management group that helps participants develop a better understanding of their feelings and how they express anger as well as develop improved communication strategies.</p> <p>We also have a provider who specializes in helping people developing coping skills.</p> <p>Visit https://www.employability-llc.com/contact to make a referral.</p>

Service Description Disability Application Assistance - ERI offers people help in applying for disability benefits such as Social Security Administration Programs: Social Security Disability Insurance (SSDI) and Supplemental Security Income (SSI), as well as Medicaid and FoodShare programs. This service assists people with completing application forms and follow up questionnaires, provides education about the steps and agencies involved, and supports people throughout the application process until an eligibility determination is made. Work Incentives Benefits Counseling - Through benefits counseling, ERI provides education about various public benefits (e.g. SSDI, SSI, Medicaid, and Medicare Savings Programs), and the effects of work on various public benefits. We work together with people to build a better understanding of work incentives, program rules, and how earnings may affect the person's disability payments and other benefits. Benefits counseling enables people to make informed decisions about starting work, and over time, assists the person when employment or career goals change. Pre-Driving Assessment - ERI's hands-on driving simulator enables clients to test and practice driving skills. Our Driving Services Specialist provides objective feedback about measured abilities such as decision-making, reaction time, attentiveness, memory, and problem-solving. This information helps people to determine their interest and potential in moving forward with driving training and getting a driver's license. ERI partners with the client and CCS Service Facilitator agencies to provide Individual Placement and Support (IPS) services. IPS supported employment services involve a partnership between the client, the CCS Service Facilitation agency, the ERI Employment Specialist, and DVR.

<p>Service Description</p> <p>The Peer Support model of recovery and wellness support is a foundational component of EOTO's recovery-focused mission. Our team leadership is at the frontlines of certified peer support workforce development in Wisconsin and Dane County. We work collaboratively with other key stakeholders in peer support and lived experience empowerment to enhance peer-led behavioral health services across our state.</p> <p>In partnership with the Wisconsin Peer Specialist Employment Initiative (WIPSEI) EOTO has worked to increase the diversity of the certified peer specialist workforce to better support historically marginalized and under-served communities.</p> <p>EOTO has gathered a team of State Certified CPS trainers and thought-leaders in effective stable peer support program development. Our team of experienced specialists works hands on to support the professional growth and development of Black, Indigenous, Latino, Hmong, LGBTQIA+ certified peer specialists. As new peer specialists earn their certification and enter the workforce we are here to provide them a supportive work environment as they engage and support our community members.</p> <p>Through sharing our lived experience and practical guidance, peer workers support people to achieve goals, create strategies and practices for self-empowerment, and take concrete steps towards building fulfilling, self-determined lives.</p> <p>Our team of Peer Support Specialists shares similar problems or experiences, providing a powerful "you are not alone" sense of understanding. Our intentionality to recognize the importance of culturally reflective representation in mental health and substance use support services allows our team to create an impact on the most vulnerable populations.</p> <p>Ninety-six percent of our team identify as Black individuals, including men and young adults. This intentionally developed team uniquely positioning us to connect organically and authentically through cultural humility to historically underserved individuals who are more likely to experience chronic race-based traumatic stress and least likely to seek or receive support from a person who shares their cultural or racial identity.</p> <p>Because of the diverse background across our team, we have already seen increased engagement from community members across Dane County. We have succeeded in encouraging mutuality, connections to natural supports, and holistic health healing. EOTO trusts the value of having providers with lived experience directly supporting members of underrepresented communities.</p>

Service Description <p>Hello! I am an experienced registered yoga teacher (E-RYT500) and facilitator of Trauma Center Trauma Sensitive Yoga (TCTSY), the evidence based adjunct therapy for complex trauma developed by David Emerson and Bessel van der Kolk at the Trauma Center in MA.</p> <p>With training and certification in many kinds of yoga, I offer various yoga styles: gentle hatha yoga, energetic flow yoga, yoga from sitting in chairs, meditative yin yoga, adaptive yoga, yoga for arthritis, and vocal yoga.</p> <p>I center each of these yoga styles in the core trauma healing practices of TCTSY, exploring and developing skills that support healthy relationship with oneself and others (invitation, choice, taking effective action, sharing authentic experience, attunement and agency), and skills that strengthen healthy connections within the nervous system (interoception/body awareness, present-moment focus, and attending to a sense of time through rhythms or countdowns).</p> <p>I also offer practices from the Community Resiliency Model (CRM) a non-yoga body-centered approach to working with trauma and developing resiliency in the autonomic nervous system, developed by Elaine Miller Karas at the Trauma Resource Institute. CRM can be especially helpful for people whose physical mobility is more limited, or who don't feel ready or interested in trying TCTSY. It can also be used to develop a complementary set of mental health skills, for those who want to combine it with a TCTSY practice.</p> <p>While TCTSY and CRM are used especially to alleviate anxiety, depression and trauma, I work together with each person to help them create an individualized practice that addresses their needs holistically, shaped by their emotional and physical experiences, needs, and goals.</p> <p>I'm happy to work with people of various ages, cultures, experiences and identities, and offer TCTSY and CRM sessions in English, Spanish, or bilingually.</p> <p>Clare Norelle MEd, E-RYT500, TCTSY-F Greenroot Yoga LLC</p>

Service Description <p>Hope Inspired is a Service Facilitation and Array services agency that specializes in services to people ages 3 and up who have experienced complex trauma and have substance use and/or mental health concerns. Staff have specialized training and experience in trauma treatment. We have staff experienced in working with children, adolescents, and transitional age youth (18-21) who are looking for ways to increase their independence as young adults. We utilize a trauma-informed family systems approach as well as a person-in-environment approach with clients, where we recognize that there are many factors that contribute to child/adolescent/adult mental health/substance use concerns. We are experienced in working with school districts regarding best opportunities for success with struggling students. We work closely with community housing and employment agencies, the medical community, and other community resources. Additionally, staff is experienced in working with the criminal justice system and population, and provides emotionally safe, non-judgmental services for all clients, including advocacy in the court system.</p> <p>At Hope Inspired, we believe unconditionally in people's strength, resourcefulness, and possibility. We work with compassion, integrity, and warmth with the aim that our clients leave our time together with a deeper feeling of purpose, understanding, and empowerment to live life under their terms and with a sense of peace. The strengths that we see in people give us hope. The intention of our work is to help clients find where their hope comes from, because with hope, anything is possible. We combine best practices to fit the needs of our clients, and we collaborate with other CCS agencies to ensure our clients have the complete care and team they need to reach their goals.</p>

Service Description <p>Horizon High School is a recovery high school. This means our environment and curriculum are structured to provide a safe and sober learning atmosphere for students in recovery from drug, alcohol and mental health issues. The classroom setting is small, in order to promote an individualized curriculum and to allow for students' needs. Horizon High school guideline for enrollment is to maintain a staff to student ratio of five to one. Our student population varies and is usually between 10-15 students. Although the program is targeted at teens in recovery, anyone that needs an alternative to traditional high school setting and meets our criteria can attend. Horizon does not limit enrollment only to students in recovery. To maintain an engaging and educational atmosphere, Horizon incorporates guest speakers, life skills education, physical education, art, cooking, a food pantry, and weekly field trips. Generally, a weekly outing is planned to engage students in their community. Students are encouraged to participate in a variety of activities, both at school and after school, in order to help maintain their recovery and develop into well rounded community members. Since Horizon's creation, over 200 young people have attended. Today many of these former students are enrolled in colleges and universities, military, or working as contributing members of our community. The mission of Horizon High School is to provide a school that fosters emotional, social and academic growth for students who want to learn in an alcohol free, drug free environment. Students will actively assume responsibility.</p>

Service Description Certified Peer Specialist with Lutheran Social Services (LSS) and Off The Square Club: Off the Square Club (OTSC) currently employs 4 individuals that provide Peer Support (CPS) and/or ISDE services who have extensive experience in a trauma informed, recovery oriented, person-centered program for persons living with mental illness. Our employees are compassionate, knowledgeable, and skilled individuals who use their personal mental illness (Peer Support) experience to offer hope and assist others in living full, well lives within the community. Staff goals are to empower the people they work with to take charge of their recovery; provide a safe place for them to increase their social connectedness and become active members of the Madison community; and facilitate access to community resources which support people in their recovery journey. Our CPS staff have experience in helping people connect with community resources and services addressing areas of need such as housing, finances, medical care, mental health care, educational and employment; vocational opportunities through volunteering and, at times, paid employment; support in times of personal crisis through Peer Support as well as long term paraprofessional counseling, and Peer Support services which are supportive of recovery. When you decide that Peer Support is something that would help you, OTSC will identify the staff person who would best fit your needs and help you reach your goals. If you are not sure this is what you are looking for to help in your recovery, but feel you may be interested in the services, we would be happy to help you meet with a CPS who will assist you in understanding how this service could benefit you. Off The Square Club General Program Information: OTSC also offers the opportunity for you to become a member of the program if you are interested, however, membership is not required if you are only interested in working with a CPS. The OTSC program provides this support by offering a safe, welcoming environment; free breakfast and lunch; access to telephones, computers, free clothing, and laundry facilities; social interaction, activities and connection; activities such as informal group discussions, art, crafts, card playing, and mutual support groups; OTSC provides these supports in a very flexible and individualized manner. Members determine for themselves when and how often they attend the program, what activities they will engage in, and which services or supports they will use – members are free to change their level of involvement as needed to meet their current life situation.

Service Description

Orion Family Services is a private, nonprofit organization which serves children, adolescents and families throughout Wisconsin. Orion's programs are dedicated to providing compassionate treatment services to troubled children and their families. Services include outpatient and in-home individual and family therapy to children, adolescents and families as well as a range of other critical outreach services, such as Service Facilitation and Individual Skills Development.

The Orion Intensive In-Home Family Therapy Program is designed for treatment of children and adolescents experiencing severe emotional, behavioral, and social difficulties within their home, school or community. Including families in treatment when working with children and adolescents is an approach that improves individual and family functioning. Although the identified client is the child or adolescent, the program's focus includes treatment that supports the family in resolving their difficulties. The philosophy of the program is that everyone in the family is responsible, but no one is to blame. Treatment emphasis is placed up on enhancing family strengths and supporting positive changes in the family system, in order to improve the overall functioning of the child. Therapists work with families to increase family cohesion and effective communication, and to create a supportive family environment where negative behaviors are reduced and positive behaviors increased. Parenting skills education is incorporated in treatment in either a formal curriculum-based approach (through out Parent Skill-Builder Program) or informally as needed. For families impacted by trauma, we help healing occur through the use of trauma-informed treatment approaches such as Trauma-Focused Cognitive-Behavioral Therapy (TF-CBT). Orion has clinicians that have obtained advanced training in the utilization of this evidence-based and highly effective model for resolving trauma and reducing resultant emotional, behavioral, and interpersonal issues.

Service Description

SOAR Case Management, Inc. is a consumer operated non-profit, recovery based provider of community mental health services. SOAR was founded in 1997 on the belief that mental health consumers can and will recover if they are given the tools to become self-sufficient and follow their hopes and dreams. SOAR's mission is to assist consumers in developing their capabilities, talents, and aspirations in a culturally responsive, trauma-informed, and recovery oriented manner. SOAR's approach to case management has always put a strong emphasis on peer support as a primary component of the service delivery continuum. Currently the majority of SOAR's staff identify as mental health consumers. Furthermore, 100% of SOAR's Board of Directors identify as mental health consumers. This in-depth understanding of the mental health and substance use systems, both from a consumer and clinician stance, ensures that consumers at SOAR remain the drivers of their own treatment and recovery.

SOAR Programs:

Case Management: At its core, SOAR's Service Facilitation services rely on the principles of self-determination, autonomy, empowerment, respect, and collaboration to tailor individualized community based treatment for adults living with mental health and substance use issues. Our solution-focused, holistic approach to case management puts consumers first and understands that each person is the "expert" of their own experience. Our case managers seek to understand the unique life experiences, successes, and challenges of each consumer and work in a culturally responsive, trauma informed manner with consumers on their recovery journey. Service Facilitators work to coordinate and provide a wide array of office and community based services including:

- Housing Support/Assistance
- Crisis Management
- SSA Benefit Management
- Psychiatry Referral/Coordination
- Physical/Dental Health Needs
- Individual and Group Therapy/Counseling Services
- Medication Management
- Peer Support Services
- Daily Living Skills
- Money Management

Psychiatry Clinic: SOAR's DHS CH. 35 Outpatient Psychiatry Clinic provides prescriber services to individuals in Madison and the surrounding Dane County Area who are living with mental illness and/or substance use concerns and are either enrolled in CCS or who have Medicaid (MA or MA with Care WI or iCare HMO's). Our Psychiatrist works directly with our consumers and their case managers in a collaborative, holistic manner to work to find creative solutions to individual challenges and concerns. Within our prescriber services SOAR offers medication management, diagnostic/psychiatric evaluations, and psychotherapy. Additionally, consumers have access to RN services including lab monitoring, medication assistance/administration, and basic physical health monitoring.

Recovery Dane: Recovery Dane provides community based Certified Peer Specialist services in one-on-one or groups settings. Our Wisconsin certified peers have the ability to lend unique insights and support to consumers living with mental illness and substance use concerns. SOAR sees Peers as an integral part of consumers treatment team during their recovery journey. Recovery Dane offers peers who are bilingual in Spanish and English as well as a peer who publically identifies as transgender.

Peer Lead Groups: Recovery Dane and Solstice House peers also facilitate multiple weekly groups including Coping with Anxiety and Depression, Hearing Voices, Writing your Way to Wellness, Radiance--peer support for transgender and non-binary people seeking mental health support, and are currently developing new offerings.

Solstice House: Solstice House opened in 2015 and is one of the three original Peer Run Respite in Wisconsin. Solstice House aims to provide a stable and supportive home-like environment run by, and for, individuals with lived experiences of mental health and/or substance use concerns. It provides short-term, residential support for individuals who may be experiencing an increase in symptoms or life stressors who are in need of support and services to aid in their overall recovery and wellness. Solstice House also offers a "Warm line" service to any Wisconsin Resident in need of telephonic or Zoom based peer support services. Warmline will be changing in 2022/23 with the implementation of the Statewide Warmline, in which Solstice House has played an integral part of planning and will provide services within.

SOAR is working toward physical health monitoring as defined in the CCS service array with a focus on education for management of physical health conditions exacerbated by mental illness. We plan to employ a part-time RN for the purpose of providing training and assistance to the CCS consumer to identify symptoms of physical health conditions, monitoring of physical health medications and treatments, and the development of skills related to monitoring and management of physical health concerns with the consumer and family members as identified by the consumer.

Service Description <p>At Sondercove Wellness, we believe in the transformative power of community-driven support, especially for Black families and individuals within Dane County. Our mission is to uplift and empower historically marginalized communities by offering tailored, culturally relevant services that address the unique challenges faced by Black families and those living at the intersection of multiple marginalized identities, including race, gender, socioeconomic status, and more.</p> <p>Peer Support Services – A Pathway to Healing Through Connection Our Peer Support Specialists are at the heart of what makes Sondercove unique. They are individuals with lived experiences in mental health challenges, substance use recovery, and navigating systemic barriers, offering a level of empathy, understanding, and authenticity that traditional clinical roles may not provide. By walking alongside clients on their journey, our Peer Support Specialists foster relationships built on trust, mutual respect, and shared experience. We value the power of lived experience, and we honor the diverse pathways individuals take toward recovery and wellness.</p> <p>What Peer Support Offers:</p> <ul style="list-style-type: none"> ? Multiple Pathways to Recovery: We recognize that there is no “one-size-fits-all” approach to recovery. Whether through therapy, support groups, spiritual practices, or community involvement, we support each person's chosen path and celebrate their unique journey. ? Person-Centered Approaches: Each individual's needs, goals, and strengths are the focus of our work. We respect clients as experts in their own lives and provide support that honors their autonomy, helping them navigate challenges in ways that are meaningful to them. ? Trauma-Informed Care: Many of our clients have faced significant adversity, from systemic discrimination to personal traumas. At Sondercove, we approach every individual with empathy, recognizing the lasting impacts of trauma and fostering a safe, non-judgmental environment that prioritizes healing and recovery. ? Strength-Based Support: We don't just focus on problems—our goal is to uplift and highlight the strengths of our clients. By focusing on resilience, we help individuals build upon their inherent abilities and navigate their recovery from a place of empowerment and self-determination. <p>At Sondercove Wellness, we are more than a wellness service—we are a community, committed to helping Black families and all marginalized individuals in Dane County thrive by creating pathways to recovery, health, and well-being that honor their identities, lived experiences, and strengths.</p>

Equine Assisted Psychotherapy and Equine Assisted Learning Services:

Triquestrian also provides Equine Assisted Psychotherapy and Equine Assisted Learning. Our mission is to provide the community with opportunities for growth and learning through connection and relationship building with horses.

We focus on Trauma Focused – Equine Assisted Psychotherapy (TF-EAP™) utilizing Natural Lifemanship. TF-EAP™ is based on the neuroscience of human and horse brain development, the impact of trauma, and the role of relationships in recovery and healing. It is principle based with a focus on assisting participants to create new neural pathways while learning regulation strategies in a trauma focused approach. TF-EAP™ Relationship Logic™ services focus on developing healthy relationship patterns by building a relationship with a horse focused on felt sense of safety, regulation, and connection for all. No riding is involved and no horse experience is required. Our TF-EAP™ Rhythmic Riding program focuses on helping participants deepen their sense of connection with themselves and their horse while experiencing somatosensory input through bottom up regulation thereby creating and strengthening neural pathways.
