- What's in this edition:**
- A highlight of the handbook!
 - DCPN Provider Spotlight: DCCC and TRC
 - Ongoing training resources

HANDBOOK HIGHLIGHT

Ongoing Training requirements
page 33 of the handbook

All crisis service providers are required to receive at least 8 hours of ongoing training per calendar year, beginning the year after their year of hire.

Relevant topics

- Providing emergency mental health services
- Rules and procedures relevant to the DCPN
- Compliance with applicable state and federal regulations
- Cultural competency in mental health services
- Current issues in client's rights and services.

Did you know?
DCPN provides useful templates to help document training. These can be found at <https://providers.dcdhs.com/DCPN>.

2024 ongoing training is required for all crisis service providers who started in their positions before 1/1/2024, and must be completed by 12/31/2024. These 8+ hours of training are in addition to any training that may still be needed to demonstrate that initial orientation training requirements were met.

Staff who also provide other community mental health service types (e.g. CCS) may apply relevant training hours for those service types toward this requirement, but documentation must be submitted separately for each service type.

You can find more information on page 33 of the DCPN Handbook located [here!](#)

Please ensure that you keep initial orientation and ongoing training records for each staff member. All training records may be requested at any time by either Dane County Human Services or by Journey Mental Health.
